SOFTWARE ENGINEER

Passionate Software Developer with a proven track record in technical issue resolution, software development, and customer-focused solutions. Adept at diagnosing and resolving complex technical challenges, while effectively communicating with both technical and non-technical users.

SKILLS

HTML, CSS, JavaScript, React, Ruby, Rails, Restful Routes/API, PostgreSQL, SQL, Git, Github, Chrome Dev Tools, Postman, JIRA, Figma, Excel, Word, Powerpoint, Troubleshooting, Windows, Linux, Mac, AWS, Data Integrity, Data Analysis, Customer Service

PROJECTS

Go-Fitness - [Github](#) | [Portfolio](#)

A fitness app that displays various workouts.

- Developed a fitness app using React and Material UI for the frontend
- Reviewed and ensured the integrity of transformed data
- Created a Rails backend with PostgreSQL database for data analysis and comparison, integrating a public API for workout data
- Implemented full CRUD capabilities, user authentication, and seamless user experiences
- Applied diagnostic utilities and analyzed functionalities to aid in troubleshooting

NetFlat - [Github](#) | [Portfolio](#)

Engineered a user-friendly app involving data organization, which required attention to data accuracy and data management

- Engineered a intuitive movie organization app using React with Tailwind CSS for the frontend
- Designed and implemented a backend RESTful API using Ruby on Rails and PostgreSQL for data analysis and comparison
- Executed complete CRUD operations, enabling efficient movie list management.

Task Master - [Github](#) | [Portfolio](#)

Developed a to-do list app, demonstrating proficiency in data organization and management

- Developed to-do list app using React with Material UI for the frontend
- Designed and implemented a backend RESTful API using Ruby and PostgreSQL for data analysis and comparison
- Executed complete CRUD operations, enabling efficient task list management

EXPERIENCE

Mindful Veterinary Care

IT Administrator

Lake Worth, FL

10/2022-Present

- Collaborated with cross-functional teams to optimize workflows and develop comprehensive solutions for data management.
- Delivered routine desktop support, including installation, troubleshooting, and client support
- Acquired comprehensive knowledge of Vetspire through self-guided learning and training
- Diagnosed and efficiently resolved technical issues, maintaining high-quality support documentation for both internal and external use
- Contribute to the development of best practices, team processes, and peer training
- Delivered excellent customer support through various communication platforms, earning client trust, and maintaining professional relationships

Modern Animal

Veterinary Assistant

Los Angeles, CA

3/2020 - 6/2022

- Demonstrated strong self-guided learning abilities and acquired comprehensive knowledge of data management systems
- Maintained and updated patient charts with a keen eye for data accuracy
- Communicated transparently with clients through various communication platforms, aligning expectations, and increasing trust
- Improved patient care efficiency through data-driven decision-making
- Recorded, tracked, and documented the problem-solving process, maintaining thorough records of decisions and actions taken.

EDUCATION

AWS Certified Cloud Practitioner| (Remote)

Expected 10/2023

Working towards obtaining AWS certification to enhance expertise in cloud computing and demonstrate proficiency in AWS services.

Flatiron School | (Remote)

2022

Software Engineering Certification

Completed an immersive and rigorous software engineering program, gaining expertise in modern development technologies.
